

FRIZONIA's engineering department could adapt the best control solution for each project requirement:

- Thermostatic 2-way/3 way valves to be installed in the chilled water circuit
- Electrically controlled 2-way/3 way valves
- Flow control valves
- Control panel including control and monitoring devices, also communication via Modbus/Profibus/Hardwired and the most up-to-date technologies available
- Digital Twin Solutions

## EXAMPLES:

Control Panel with PLC

Control Panel without PLC

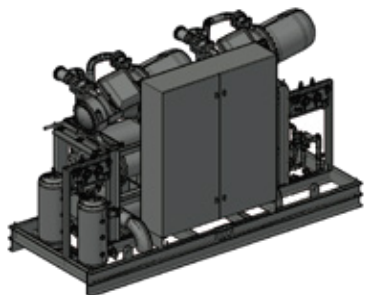

Water Valve

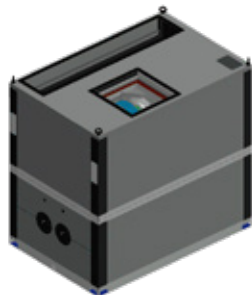

## APPLICABLE TO ALL THE FOLLOWING EQUIPMENT:

CHILLED WATER PLANTS

FAN COILS

UNITS COOLERS

GRAVITY COILS

SEA WATER COOLING COILS

SEA WATER FAN COOLER
